

LSPEDIA SERIALIZATION TOOLKIT

Serialization is not a simple undertaking. New regulatory rules and the required processes will impact your entire organization, including IT, R&D, warehouse, manufacturing, supply chain, and distribution, as well as how you interact with partners and vendors. The LSPedia Serialization Toolkit is built on industry best practices and can be deployed at your organization as a customizable template, regardless of which country you operate in. That means every stakeholder in every line of business can be equipped, trained, and prepared to implement a serialization process within your company.

PRODUCT FEATURES

This toolkit provides all of the crucial information on regulations, strategy, line execution, CMO management, and employee training required to get your business up to speed on Serialization. By utilizing this toolkit, you are guided by the industry best practice in implementing serialization.
