

INDUSTRY CHALLENGES

Pharmaceutical manufacturers and wholesale distributors all face the challenges of complex regulatory compliance, tough customer demand, and high shareholder expectations. They share similar obstacles in their pursuit of those goals:

- Regulatory complexity – DSCSA, GxP, CFR 21 Part 11, etc.
- Technological hurdles – New solutions, Legacy systems, IT staff shortages, security concerns
- Operational inefficiencies – Communication silos, supply chain disruptions, inventory control

“LSPedia brought in a methodology, a foundation so that we can built upon what we had; also to seek solutions we may or may not thought on our own. we have come a very long way since we engaged LSPedia in this project. We would not be anywhere near the goals that we have set for ourselves as far as implementation goes.”
